FLEXIBLE DENTURE COURSE **6 hours verifiable CPD**

A ONE DAY COURSE THAT WILL COVER:

- *The indications and contra-indications for flexible partials*
- *A guide to the different materials & the various appliances that can be made*
- *The outline of the procedure for all these materials from design to finish including:*
 - *Blocking undercuts*
 - *Model duplication*
 - *Teeth set up*
 - *Wax up*
 - *Investing and boiling out*
 - *Injecting*
 - *Finishing and polishing (including a guide to the best tools for the job)*
- *Common mistakes and pitfalls*
- *Practical tips and techniques at each stage from your tutor, Mr Slavko Kos RDT MDTA, a dental technician with over 40 years experience, who has been using flexible materials for over 10 years.*

ON COMPLETION OF THE COURSE YOU WILL RECEIVE:

- *A demonstration model to show your dentists*
- *Promotional literature for dentists for all materials demonstrated on the course*
- *Manuals and instructions for all materials demonstrated on the course*
- *IDEA-issued certificate*
- *6 hours verified CPD*
